

Foil Sparklers

You will need:

Tin foil

Sticky tape

Scissors

Glue

Glitter

An art straw

1. First, get a large piece of tin foil – about the size of an A3 piece of paper.

2. Paint a line of glue along one of the long edges of the A3 foil, then sprinkle on some glitter. Leave this to dry.

3. Once dry, carefully tear or cut several strips along the long glittery edge to about 10 cm into the foil sheet.

4. Next, place the straw on the foil along the shorter edge. Slowly and carefully, wrap the foil around the straw and roll the straw until all the foil is wrapped around it. Secure with sticky tape.

5. Scrunch and press the foil around any bits of the straw not yet covered.

Foil Sparklers

You will need:

Tin foil

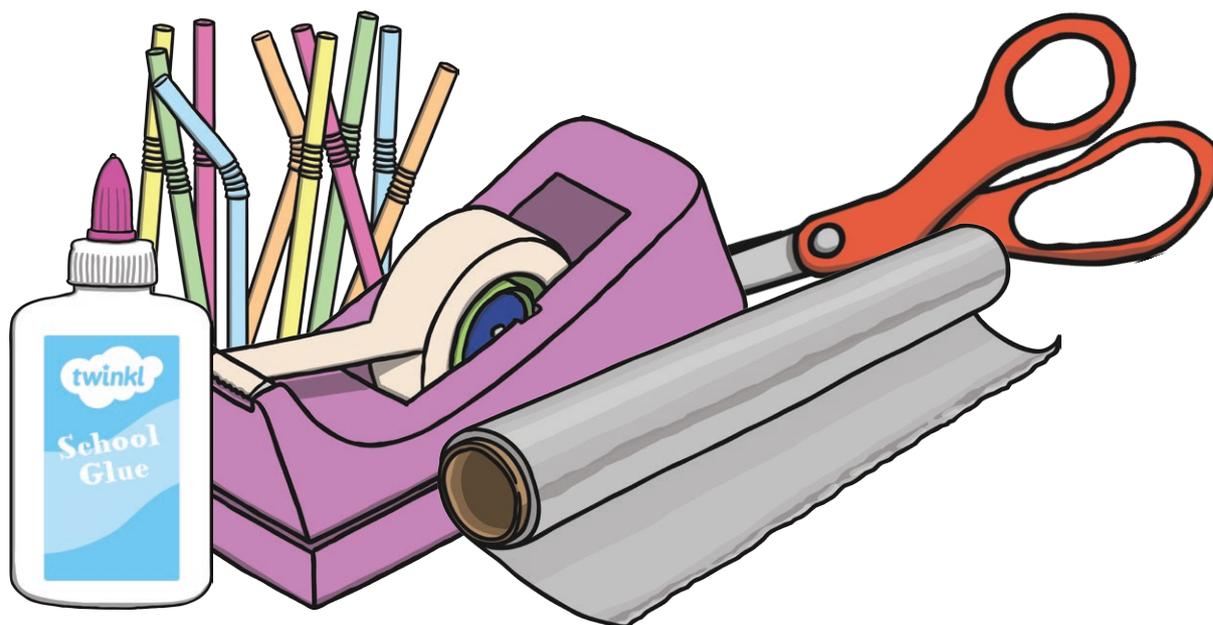

Sticky tape

Scissors

Glue

Glitter

An art straw

Step 1

First, get a large piece of tin foil – about the size of an A3 piece of paper.

Step 2

Paint a line of glue along one of the long edges of the A3 foil, then sprinkle on some glitter. Leave this to dry.

Step 3

Once dry, carefully tear or cut several strips along the long glittery edge to about 10 cm into the foil sheet.

Step 4

Next, place the straw on the foil along the shorter edge. Slowly and carefully, wrap the foil around the straw and roll the straw until all the foil is wrapped around it. Secure with sticky tape.

Step 5

Scrunch and press the foil around any bits of the straw not yet covered.
